

# Melville Membership Passport

## What is it?

Melville club members are now able to share complimentary tastings with their friends and family, *without having to be present*. We hope this new benefit will allow you to share your love of Melville, and fully utilize your membership benefits even if you are not able to personally join the group.

Premier Cru	4 individual tastings, annually
Grand Cru	8 individual tastings annually
Monopole	12 individual tastings annually

## How to Redeem

- Club member must contact the winery and give permission to use your passport tastings for the reservation. You can contact us via phone, email or text.
- Reservation should be booked under the guests' information (at either tasting room)
- When your guests check-out, we will apply the number of passport tastings you approved to their reservation.

You may choose to use your passport tastings in combination with your standard complimentary tastings during a visit. For example, if you are a premier cru member and you visit with a group of 6 guests, you can use your two standard complimentary tastings, *plus* your four passport tastings to cover the entire group.

## Policies

- If there are more guests present than the number of passport tastings available, remaining tastings will be charged at standard pricing (but one tasting may be waived for every 3 bottles purchased).
- Member discounts will not be applied to bottles, tours, food or merchandise purchased by your guests.
- Passport tastings are not available on the day of signup, or prior to taking a club shipment.
- If a membership is upgraded part-way through the year, members must take one shipment at the new level prior to receiving the balance of passport tastings.
